Waterborne Alkyd Primer**
Latex convenience, Alkyd performance.
Innovative alkyd technology designed with you in mind.

A BRAND FROM
AkzoNobel

Dulux X-pert Waterborne Alkyd Primer

Alkyd application and performance, speed and ease of an acrylic latex.

Our premium quality waterborne alkyd primer is formulated with advanced alkyd emulsion technology; it contains lower VOC levels than a traditional alkyd primer without sacrificing on application or performance. Dulux X-pert Waterborne Alkyd applies easily and provides a sealed, sandable surface that is compatible with any topcoat. Its stain blocking capabilities ensure that most minor stains are sealed and prevented from bleeding through your finish coat. This innovative, interior/exterior primer sealer was developed with our customer's needs in mind.

This product is suitable for use on: new gypsum (drywall), masonry, cured plaster and interior and exterior wood, both new and properly repaired weathered wood (except cedar and redwood). As well as for previously painted or varnished surfaces in good condition and properly prepared.

Feature	Benefit
Quick drying (Dries tack free within 30 min., recoat 2 - 3 hrs.)	Same day job completion
Interior and Exterior Use	Value; multi-purpose primer
Excellent adhesion	Outstanding Adhesion to most surfaces – including alkyd paints

Low VOC	Compliant with Canada's most stringent VOC regulations
Soap and water clean up	Fast, easy clean up

The Dulux Difference

Superior quality paint, great value.

Dulux is the world's leading brand of premium quality paint. The guiding principles for any Dulux paint product are to ensure they consistently live up to the Dulux reputation for verifiable, total product performance that is both recognized and expected by our customers. As you would imagine, all paints are not made equal; Dulux paint is made with superior raw materials and undergoes extensive product testing with chemists, field experts and professional painters in Canada before it ever reaches Dulux store shelves.
