

PAINT SOLUTIONS FOR EDUCATION FACILITIES

DULUX® Paints One Brand. Infinite Solutions for Education.

In an educational facility there are very few areas where painted substrates don't take a pounding. Stairwells, hallways, lockers, classrooms, cafeterias, gyms - no place is off limits to the wear and tear that can result from abrasion, moisture penetration, frequent cleaning, corrosion and the general physical abuse that high traffic can create.

If you would like advice or a tailored approach for your paint maintenance program, our dedicated maintenance team is here to help. A paint maintenance specialist can guide you in your paint selection process to meet your maintenance challenges and can also provide an initial on-site consultation. Once you partner with us for all of your paint maintenance needs, we can provide you with a Facility Paint Maintenance and Operating Binder documenting both product and colour recommendations throughout your entire educational facility.

KEY CONSIDERATIONS FOR PRODUCT SELECTION

Selecting the right paint products for educational facilities is essential. Several key considerations need to be taken into account when selecting the appropriate paint products:

Areas with **High traffic** that take physical abuse like hallways, stairways and entryways

Areas where **fast turnaround times** are needed to ensure minimum disruption like classrooms, lobbies & offices

Areas where **slip and fall protection** is of paramount importance like hallways, loading docks, and generally any public access space

Areas where **zero- or low-VOC** and low-odour products are required like classrooms, dorm rooms and offices

Areas that need to withstand **rigorous cleaning procedures** such as hallways, locker rooms and classrooms

Exterior areas subject to the **harsh effects of the weather** like stadiums, entryways and stairways

RECOMMENDED PAINT SOLUTIONS FOR EDUCATION FACILITIES

INTERIOR PAINTS

- DULUX® DIAMOND™**
- Premium acrylic formula offers excellent adhesion to multiple substrates for a durable finish
 - Cross-linking technology for stain and household chemical resistance
 - Easy Flow Modifiers give the formula excellent flow and leveling, for a beautifully smooth finish

- DULUX® LIFEMASTER®**
- Our highest quality zero VOC* low-odour paint allows for early reentry
 - Excellent adhesion to most surfaces for a durable finish
- *Colourants added to this base paint may increase VOC level significantly depending on colour choice.

- DULUX® X-PERT®**
- Excellent touch-up
 - Excellent flow and application properties

EXTERIOR PAINTS

- DULUX® DIAMOND™ EXTERIOR**
- Outstanding dirt and UV resistance
 - Specifically formulated to resist mildew on the paint film
 - High build for exceptional hide
 - Low temperature application
 - Quick dry 100% acrylic

- DULUX® WEATHERGUARD®**
- 100% acrylic paint formulated to guard against extreme weather conditions
 - Tough, durable finish
 - Excellent gloss and colour retention
 - Exceptional adhesion

- PERMA-CRETE™**
- Full line of masonry coatings includes: fillers, sealers, primers, elastomers, textured coatings topcoats (vertical above-grade) and topcoats (horizontal capable)
- FOR FULL PERMA-CRETE CATALOGUE, VISIT DULUX.CA OR CONTACT YOUR LOCAL SALES REPRESENTATIVE.

SPECIALTY PRODUCTS

- BREAK-THROUGH!®**
- Quick Dry - dries to the touch in as little as 15-20 minutes, re-coat in one hour
 - Block resistance - tack-free film in as little as 30 minutes
 - Reduces down time, helps complete jobs faster

- PITT-TECH® PLUS EP**
- Direct-to-metal acrylic coating
 - Flash rust/early rust resistance
 - Good abrasion, chemical and corrosion resistance
 - Versatile for use on metal, masonry, plaster and dry wall

- PITT-GLAZE® WB1**
- Excellent abrasion, impact, chemical, and stain resistance
 - Lower odour than Two-Component
 - Excellent mildew resistant coating

COLOUR EXPERTISE

Some educational facilities were built to decrease distractions with smaller windows and monotonous same classroom and hallway design throughout. Assigning different colours for hallways not only serve as directional cues but also engage the senses. Colours that reflect nature are more restorative and energizing than colours reminiscent of urban landscapes. At Dulux Paints, we consider colour at every angle: aesthetics, trends, digital, matching and performance. A comprehensive suite of colour tools and services offer the opportunity for you to engage with colour the way we see it and specify it.
